Jack Lugar For Congress Newsletter

Indiana 5th CD

Dear Elisabeth,

Will you join me in returning our country to prosperity? While there is a lot of negativity about our federal government and the political games that are being played in Washington, I believe we are poised to bring this country back to greatness. The formula is simple: True Conservative Values and Real Leadership.

Time to Change Course

Recently I spoke at the Tea Party of Hamilton County and I was asked "What makes you different from the other candidates?" The biggest difference is that I am accessible. I had one gentlemen tell me how when he first visited Washington D.C. in the 1970's he had a personal tour of the Capitol by his Representative. By the time he went back in the 1980's he wasn't able to get into see his Representative.

I have heard this same story from quite a few people. I give you my word that I will be accessible. I will respond to the requests of the people who reach out

to me and I represent the voice of Indiana. My family will continue to live in Indiana and we will continue to be active participants in our community.

It is time to change course and have a representative who is accessible, who will represent the voice of Indiana and will bring the energy necessary to serve the people of the 5th District.

On the Campaign Trail

I took part in the Remembering James Dean Festival and was the only Congressional candidate who walked in this parade. I am the only candidate in the Congressional Race in the 5th District in Indiana who is not a politician I am deeply committed to getting to know the people I will represent in Congress. The Remembering James Dean Festival offered me the opportunity to talk with and listen to the concerns of people in Fairmount, IN.

I was able to share with the local residents my belief that it is not too late to bring our economy back to greatness, and that I am willing to make the difficult decisions that will benefit our children and future generations. I do not want our children to suffer under a failing economy, unwarranted government regulations, and excessive taxes. I want to empower the citizens of this country by shrinking the federal government and retuning the decision making power to the states as our Founding Fathers originally intended.

My goal is to stimulate the economy by eliminating abusive regulations on businesses and leveling the playing field for American businesses in the international market. I will introduce legislation to create jobs and grow America the right way. Through my "Rewarding the Ripple Effect Plan," tax breaks would be offered to employers that hire and retain new employees from the unemployment rolls. In addition to growing the economy naturally, my plan will keep jobs in the U.S. where they belong.

My family and I toured the community and festival. My youngest son, Conrad, had a great time sitting in the seat of a tractor set to pull kids through the parade route.

I am committed to being accessible to the people in Indiana and I am out regularly meeting Hoosiers at events and venues in Indiana's 5th Congressional District.

It is time to change course. I'm in this race because my true conservative vision and determination have led me to take action - Right Now, and serve my native State and fellow Hoosiers.

I need to gather at least 60,000 votes on May 8, 2012. How can you help me reach that goal? Pledge \$15 towards 10 signs that will be placed in yards and throughout the 5th District. You can donate through my website's [Donate link](#).

I appreciate all your support. Together we can change the course and return our country to prosperity.

Sincerely,

Jack Lugar
